

Tuskegee University College of Veterinary Medicine (TUCVM)

Office of the Associate Dean for Research and Advanced Studies (ADRAS)

What research opportunities are available in the TUCVM?

Graduate faculty members in the TUCVM have research expertise in the following areas: infectious diseases, cancer, obesity, regulation of food intake, food safety, computational epidemiology, environmental toxicology, pharmacology, immunology, embryology, renal disease, and embryo transfer technology.

Does the office of the ADRAS assign students to research faculty?

No. During the first semester, the ADRAS is your temporary advisor. Students are responsible for finding a research faculty based on the students' research interest.

How do I find a mentor for my summer research or for my graduate thesis?

Research faculty profiles can be viewed by clicking the link listed below:

<https://www.tuskegee.edu/programs-courses/colleges-schools/cvm/cvm-adras-facultystaff>

Can I switch between Thesis and Non-thesis Options for my Master's in Veterinary Science?

There is a limited amount of Non-thesis slots. The ADRAS will decide if there are available slots to change to the Non-thesis option.

When are the deadlines for registration, to drop or add a course, to apply for candidacy, or to apply for graduation?

The university and graduate student deadlines can be found on the academic calendar and the Graduate Studies Research website by clicking the links listed below:

<https://www.tuskegee.edu/programs-courses/academic-calendar>

<https://www.tuskegee.edu/graduate-school>

How many Credits am I allowed to transfer from another School or from my undergrad?

Nine transfer credits are allowed. Transfer credits must be decided by the ADRAS 1001005 2TfE 49Tm0g0G 00emic calendar and the
